FUTURE PARTNERS

WHO WE ARE

Siam Able Innovation Company Limited, established in 2019, focuses on developing high -quality products for illnesses and disabilities.

They emphasize unique customization while upholding quality and social responsibility through continuous research and innovation.

"Every person's illness and disability is distinct."

KOMRON SAN

Mr. Komron Manoewwan, the Founder of Siam Able Innovation, had a typical life working as an electrical engineer.

However, a life-altering car accident led to severe disability, changing his life completely. Despite this challenge, he persevered and turned this adversity into a transformative opportunity for himself and society.

Consumer Pain Points and Solutions

Problems

Assistive devices for seniors and people with disabilities are typically costly and may not fully meet their specific needs in terms of quality and customization.

Additionally, individuals with disabilities and the elderly often rely on their families for financial support.

02

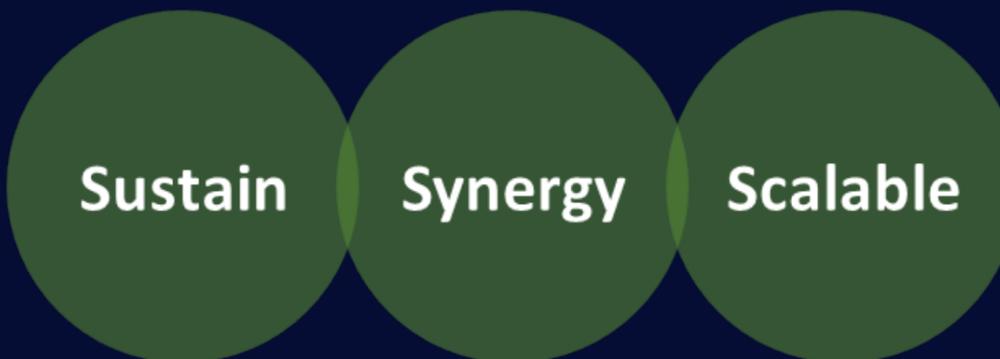

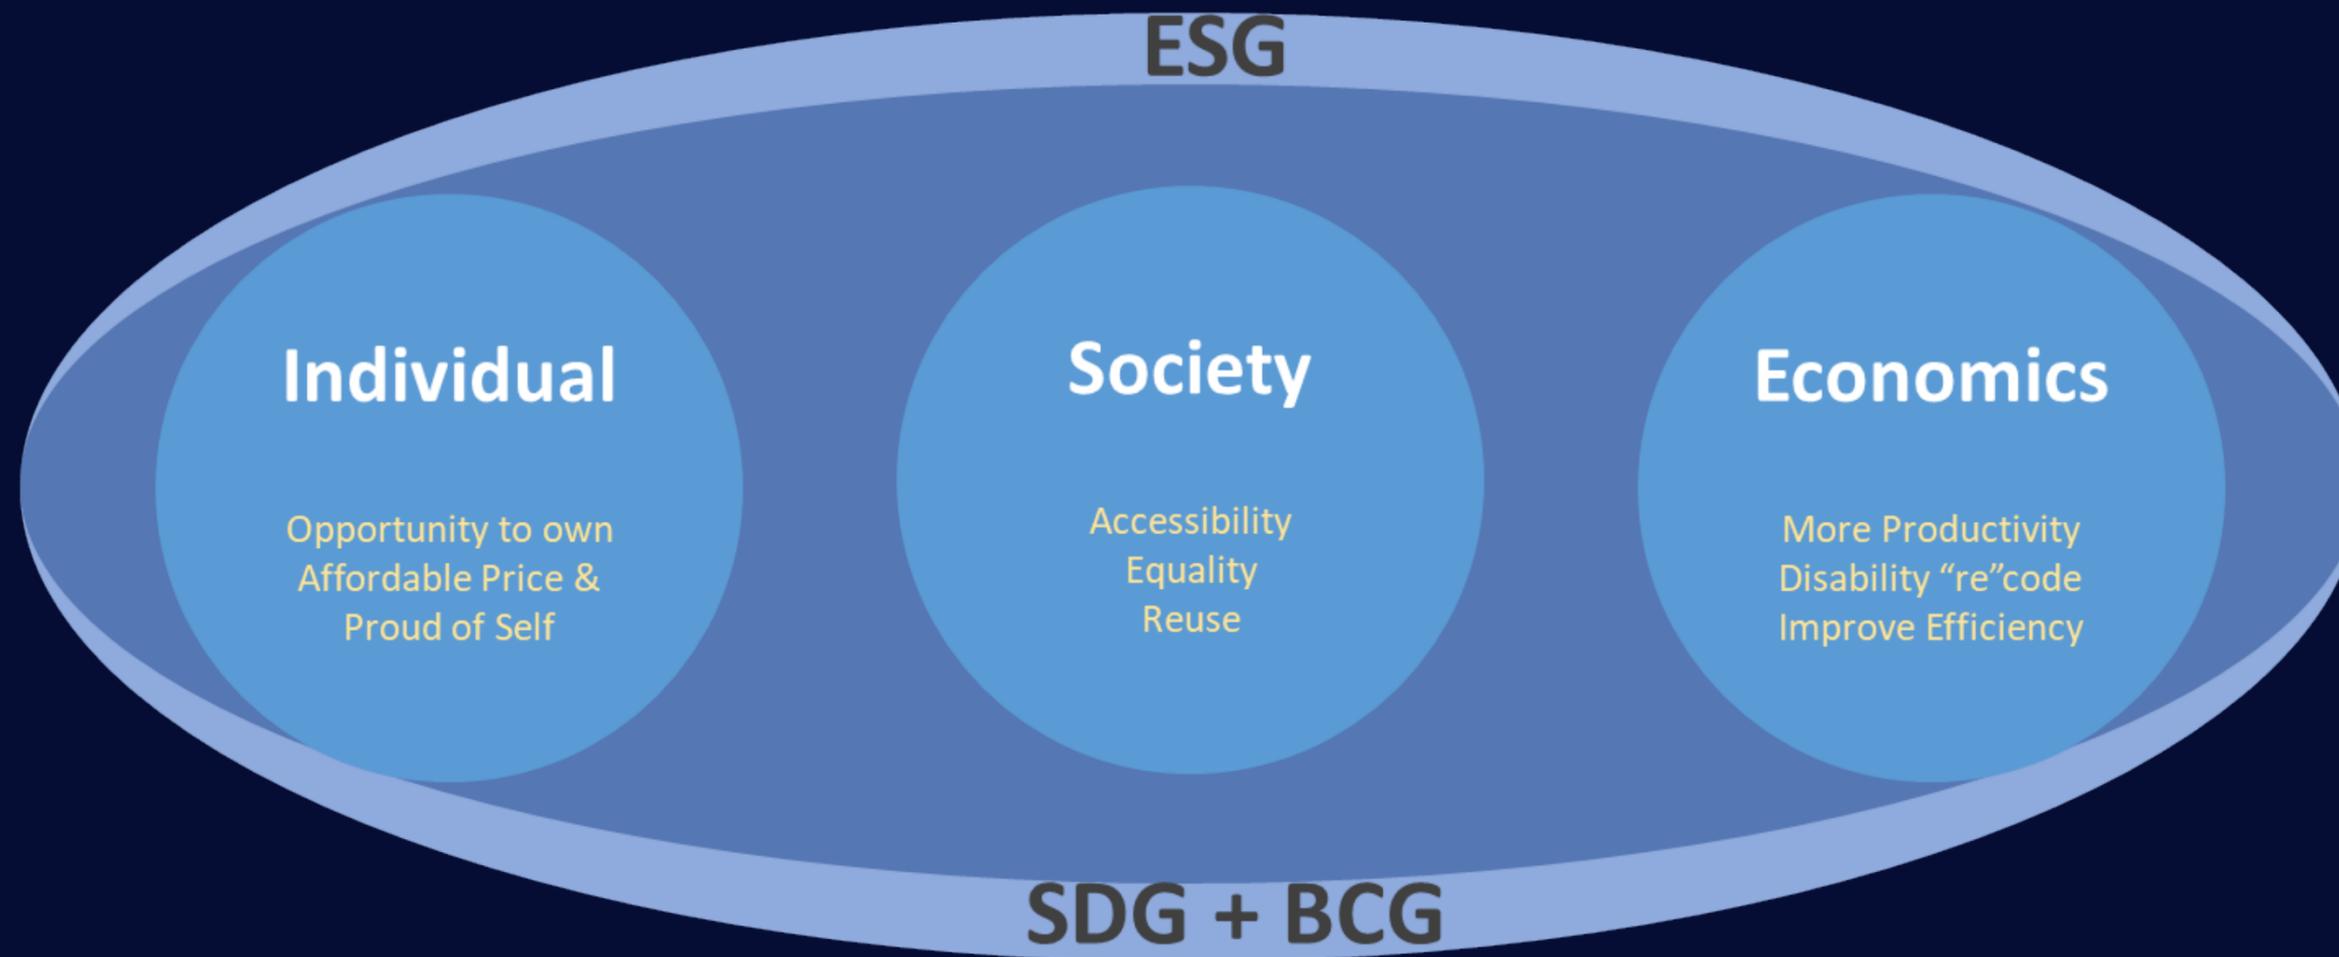

PAIN POINTS &
IMPACTS

Solutions

Design and create top-notch assistive devices at a reasonable cost, enhancing accessibility for a wider range of users.

By involving individuals with disabilities and community members in repair, construction, and teaching positions, we offer income opportunities and contribute to enhancing family livelihoods.

Siam Able Innovation "The Impacts"

02

Product – Positioning

Movable Patient Lifter

- Make life easier
- bedridden patient

03

PRODUCTS

Adjustable Electric Wheel Chair

- Exercise
- Free to move
- Blood Circulations
- Better digestive
- Bone Mineral Density
- Excretory System
